Mr. Peter David
Minister of Tourism
Grenada Ministry of Tourism
Ministerial Complex
St. George's
Grenada, W.I.

April 7, 2009

Dear Minister.

This letter is to introduce our company Island Media Technology Inc. located in Toronto Canada
Our company provides audio video solutions for commercial and residential applications.
The business was established in 1996, we design audio visual systems for projects of varying sizes.
We are presently the Audio Visual solutions provider at Toronto International airport.

I visited Grenada on vacation in March 2007 just before the world cup cricket and noticed that construction work was being completed in the airport.

I returned to Grenada again in 2008 and became aware that there maybe an opportunity for us to offer our expertise to enhance some areas of the airport.

I will be arriving in Grenada on 12th April for a period of 14 days.

If possible; we could meet to discuss some ideas that may help improve the way information is conveyed to arriving and departing passengers, also the use of electronic media to generate income for the airport.

Please feel free to visit our website www.islandmediaAV.com for additional information.

If this opportunity would be of interest to you, we can arrange a meeting sometime during my stay in Grenada.

This letter may not reach you before my departure from Canada, but feel free to email or call me.

I will be checking both for messages.

Yours truly,
Michael Charles.
